Welcome to the final part of our Lawn Masterclass series!

You've learned how to start a great lawn.
Now here's how to keep it thick, green
and healthy all year.

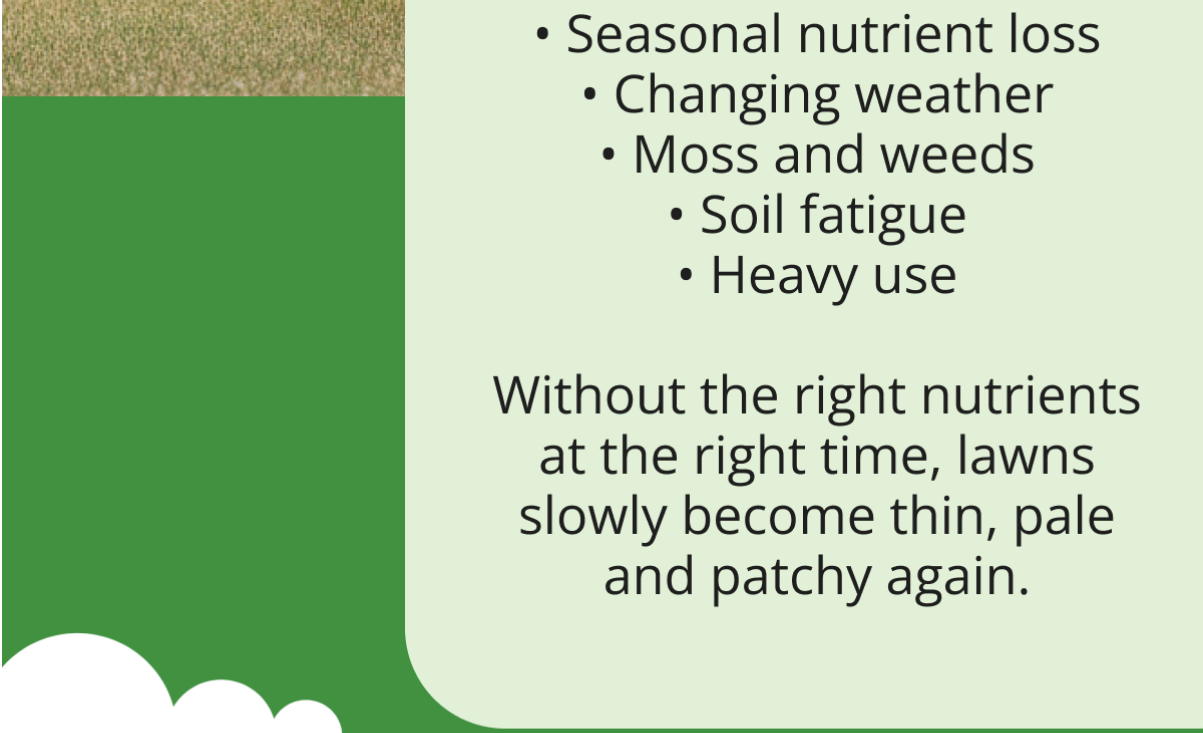

PRESSURES

Even lawns that start beautifully can decline if they're not maintained properly.

Challenges

Grass is constantly facing pressure from:

- 
- Seasonal nutrient loss
 - Changing weather
 - Moss and weeds
 - Soil fatigue
 - Heavy use

Without the right nutrients at the right time, lawns slowly become thin, pale and patchy again.

BENEFITS OF ONGOING CARE

Great lawns aren't a one-off job. They're maintained through small seasonal treatments that keep grass strong, dense and resilient.

That's why professional groundskeepers follow a yearly feeding program rather than one single application.

**Instead of
repairing
problems every
year,
you're prevent
ing them
before they
appear.**

Prevention

Regular feeding and treatment helps your lawn:

- ✓ Stay deep green all season
- ✓ Grow thicker and denser
- ✓ Develop stronger roots
- ✓ Resist moss and weeds
 - ✓ Recover faster from wear, pets and weather

Timing

Remember earlier in the masterclass when we said timing matters?

The challenge for most homeowners isn't effort. It's knowing what to apply - and when.

That's exactly why we created the Lawn Care Subscription.

THE SUBSCRIPTION

With our subscription you receive:

- The right seasonal treatments delivered automatically
- Products designed to feed, strengthen and protect your lawn
- A simple step-by-step plan to follow throughout the year

No guesswork.
No missed treatment windows.

Just a lawn that gets better every
season.

What a year of care looks like

Spring

Feed and stimulate strong
growth

Summer

Strengthen grass and
deepen colour

Autumn

Strengthen roots and
prepare for winter

Winter

Support soil health for the
next growing season

Small seasonal steps that
keep your lawn consistently
improving.

**Instead of restarting every
spring...**

You maintain a lawn that is:

- ✓ **Thick**
- ✓ **Deep green**
- ✓ **Hard-wearing**
- ✓ **Healthier season after season**

START MY LAWN CARE PLAN

You've now completed the Lawn
Masterclass.

Follow these principles and you'll be
ahead of most homeowners already.
But if you want the simplest way to
maintain a great lawn, The Seasonal
Subscription makes it effortless.
